ADVANCES IN STRUCTURAL SCIENCES
RESEARCH FOR HIGH-SPEED FLIGHT

The conference will be held in Scott Laboratory. The most convenient public parking garage is located to the east of Ohio Stadium on Tuttle Park Pl. See from the map that Scott Laboratory is a short walk to the east along 19th Ave (walk away from Ohio Stadium). The main entrance is on the corner of 19th and Magruder.

After entering Scott Laboratory walk down the corridor to the left to Room E100 to the registration table. Signs will be posted.

**Tuttle Parking Garage:**
2050 Tuttle Park Pl
Columbus, OH 43210

**Scott Laboratory:**
201 W. 19th Ave
Columbus, OH 43210
We were just notified that there will be maintenance in the Tuttle Place parking garage during the conference, reducing capacity by 50%. There likely will still be parking available since it is now summer semester. However, in case the Tuttle Place garage is full, you will have to park in the Public garage just north of the Blackwell Hotel. See the map below. It is approximately a 10-minute walk from this garage at the corner of Lane and Tuttle Park Place to Scott Laboratory. From the garage, follow Tuttle Park Place past the Blackwell Hotel to Ives and then walk next to the campus buildings South to 19th, then east to Scott Laboratory.

After entering Scott Laboratory walk down the corridor to the left to Room E100 to the registration table. Signs will be posted.

**Lane Avenue Parking Garage:**
281 Lane Avenue
Columbus, OH 43210

**Scott Laboratory:**
201 W. 19th Ave
Columbus, OH 43210
